

HIRARC & JSA (Hazard Identification, Risk Assessment & Control/ Job Safety Analysis)

INTRODUCTION

The management of occupational hazards is vitally important in reducing the costs of incidents and property damage. Regardless of our occupation, every job has hazards attached and the risk of injury and damage exists. With the combination of the Hazard Identification, Risk Assessment & Risk Control (HIRARC) and Job Safety Analysis (JSA), this program will help you to assess the risk associated with your work, and to determine the necessary preventative measures to be taken to avoid injury and/or damage to property. Working in an industrialized environment increases your exposure to a wide range of different risks.

Duration
2 days

SSTC Member
RM 742.00

Non SSTC Member
RM 795.00

SME
Training Grant
RM 238.50
