

GAS FITTER—CLASS I

SABAH SKILLS & TECHNOLOGY CENTRE

INTRODUCTION

Train local fitters in gas engineering technology particularly on low and medium pressure reticulation system (LPG & Natural Gas) for housing, Commercial and industrial areas in line with requirements of Malaysian Gas Supply Act (1993) and Gas Supply Regulations (1997).

COURSE CONTENTS

- Piping System for NG & LPS III
- LPG Storage System II
- Pipes Sizing II
- Meter and Regulator Selection II
- Testing, Purging and Commissioning I
- Project Management II
- Corrosion Control
- Codes & Standards for Natural Gas LPG
- Gas Supply Act 1993 and Gas Supply Regulations 1997

WHO SHOULD ATTEND

Technicians, Site Supervisors, Gas Contractors with/without registration with PKK, CIDB and Energy Commission. Future Gas Contractors and individuals involved in the gas industry are highly recommend to attend.

SYLLABUS FEATURES

- Syllabus has been designed to cater requirements of Malaysia Gas Supply Act (1993) / Gas Supply Regulation (1997)
- The course has been organized to prepare candidates for gas competency oral interview by Gas Department, Energy Commission
- Competent facilitators from university and industry
- Complete lecture materials in English/Malay
- Full time or part time basis enrollment

ENTRY QUALIFICATION

- One year experience in any gas installation
- Ability to converse and literate
- Age of 18 above

RESOURCE PERSON

UTM-MPRC Trainer

Duration
10 Days

SSTC Member
RM 3,710.00

Non SSTC Member
RM 3,922.00

FSI's Member
RM 3,816.00

Fee is inclusive of refreshment, lunch, course materials and certificate of attendance

*Rates inclusive of 6% GST
